Note

One £30,000 grant was available. Three £10,000 grants were available. The £5,000 and £1,000 categories were undersubscribed, but required a minimum 10 votes to be successful. One applicant did not achieve this.

A recount was conducted of applicants 1, 2 and 10. The results were 120, 111, 8, providing no change to the grant awards.

15 votes were void for not being a candidate in the funding category. The distribution of void votes was such that it could not alter the results if counted anyhow.
